

Rock Island Arsenal,

Rock Island, Ill.,

May 6th., 1890.

The Superintendent of the
Mint of the United States
Philadelphia, Pa.,

Sir:

I have the honor to request that you have the enclosed piece of sheet silver assayed to determine its fineness, and that you give me the result of the assay.

This sample is taken from a lot of sheet silver purchased by me for making marksmen's insignia for the U. S. Army, and one of the requirements of the contract under which it is furnished is that it shall be 92½ per cent. fine. It is only desired to know if the enclosed piece is of that fineness. This Arsenal is much indebted to the authorities of the Mint for similar favors in the past, and I will feel very grateful if you accommodate me in this instance.

Very respectfully

J. Muhlenberg

Colonel of Ordnance
Commanding

NARA RG104, Entry 1, Box 163
